

## **Greenergy is one of the 250 most sustainable companies in the world, according to Sustainalytics.**

- The company has reached first place among its peers by market capitalization
  - Greenergy ranks 235th out of 15,000 companies analyzed
- Sustainalytics has included Greenergy in the negligible ESG risk category, i.e. the lowest risk category

Madrid, October 24th 2023.- Greenergy has been recognized as one of the 250 most sustainable companies in the world for the third consecutive year, according to the latest analysis conducted by Sustainalytics, one of the main indexes in the world that addresses the ESG criteria of companies. Specifically, Greenergy is ranked 235th out of the 15,000 companies analyzed by this barometer.

In addition, the company has reached the first position in its sector by market capitalization, the fourth position within the 93 companies specialized in independent energy production analyzed by Sustainalytics; as well as the sixth position among the more than 700 *utilities* industries of the index.

Sustainalytics measures companies' exposure to ESG risks and their ESG risk management on a scale of 0 to 100 (the lowest number being the best rated). In this edition, the international index has rated Greenergy with a 9.7, placing it in the negligible ESG risk category, i.e. the lowest.

After evaluating in detail the behavior and performance of Greenergy in environmental, social and governance matters, Sustainalytics has positively assessed the company's great efforts to improve community relations, human capital, health and safety at work, as well as its governance policies.

Greenergy also in MSCI ESG and ISS ESG

This recognition is in addition to the maximum score obtained by the company in the MSCI ESG Rating, an indicator that positions Greenergy as one of the most sustainable companies in the *utilities* sector, as well as the CDP index, achieving industry leadership in ESG.

Furthermore, Greenergy has once again received positive evaluations, such as that of ISS ESG, where it obtained a very high score in terms of transparency, and the Refinitiv rating, which has placed it as one of the best renewables in the world in the ranking.

"We are very proud of Sustainalytics' recognition of our sustainability performance, which has placed us among the world leaders in this area. We will soon unveil our ESG strategy 2024-2026, an ambitious and company-wide strategy that will further underpin our ESG commitment, leading to operational and financial improvements.

## About Greenergy Renovables

Greenergy Renovables is a Spanish company created in 2007, an independent producer of energy from renewable sources, mainly photovoltaic, wind and storage, listed on the Spanish stock exchange since 2015. Its business model covers all project phases, from development, through construction and financial structuring to plant operation and maintenance. The company has a global platform of more than 15 GW in various stages of development in the eleven countries where it operates in the European (Spain, Italy, Germany, Poland and the United Kingdom), North American (United States) and Latin American (Chile, Peru, Mexico, Argentina and Colombia) markets.
