

Greenergy strengthens its corporate structure with the appointment of two new executives

- From Iberdrola, Ana Delgado joins as the new Head of Regulation
- With over 15 Years of experience, María Abuin will lead the Company's Tax Area

Madrid, June 24, 2024.- Greenergy has announced the appointment of Ana Delgado as Head of Regulation and María Abuin as Head of Tax. Both professionals bring extensive experience, and their incorporation will reinforce the company's corporate structure during a period of significant growth.

Ana Delgado joins Greenergy after nearly 20 years at Iberdrola, where she held various positions of responsibility in different business areas such as promotion and planning. The new Head of Regulation, who until now was Head of Global Positioning and Regulation at the utility company, holds a degree in Industrial Engineering and an MBA from Nebrija Business School, and has completed postgraduate studies at ESADE.

María Abuin joins Greenergy after more than 10 years at Ferrovial, including two years in their New York office. Abuin has solid experience in international tax, having managed tax functions in key jurisdictions such as Australia, the United States, the United Kingdom, India, Norway, and France. Her most recent role was Director of Tax at Navantia.

These new appointments come during a period of strong growth for Greenergy. The company has significantly increased its business figures in recent years and has established itself as one of the leaders in the European renewable energy sector. Currently, Greenergy operates in Europe, the United States, and Latam, and has major ongoing projects such as Oasis de Atacama, the world's largest battery project.

"The arrival of both executives demonstrates the company's ability to attract talent and our commitment to incorporating women in leadership positions. Their expertise also allows us to develop the organization for the strong operational growth that we will continue to maintain in the coming years," highlights Pablo Otín, CEO of Greenergy.

About Greenergy Renovables:

Greenergy Renovables is a Spanish company created in 2007, an independent producer of energy from renewable sources, mainly photovoltaic and storage, listed on the Spanish stock exchange since 2015. Its business model covers all project phases, from development, through construction and financial structuring to plant operation and maintenance. The company has a global platform of more than 15 GW of solar in various stages of development in the eleven countries where it operates in the European (Spain, Italy, Germany, Poland and the United Kingdom), North American (United States) and Latin American (Chile, Peru, Mexico and Colombia) markets.
