

Greenergy donates 200,000€ to the Spanish Red Cross to support communities affected by DANA

Madrid, November 6th, 2024.- Greenergy has donated 200,000€ to the Spanish Red Cross to support the communities affected by the DANA disaster, with which it has a deep connection. In particular, it has a strong presence in the Valencian Community with solar projects under construction, as well as numerous employees and supply companies linked to its activity.

This contribution will allow the Spanish Red Cross to continue its work, providing rescue operations, shelter and essential supplies to those affected, as well as activities whose efforts are aimed at the early recovery of the affected area.

Greenergy extends its condolences and sympathy to the families of the victims and to all those affected in Valencia and other areas that have suffered the consequences of last week's devastating DANA.

About Greenergy Renewables:

Greenergy Renovables is a Spanish company created in 2007, an independent producer of energy from renewable sources, mainly photovoltaic and storage, listed on the Spanish stock exchange since 2015. Its business model covers all project phases, from development, through construction and financial structuring to plant operation and maintenance. The company has a global platform of more than 15 GW of solar in various stages of development in the eleven countries where it operates in the European (Spain, Italy, Germany, Poland and the United Kingdom), North American (United States) and Latin American (Chile, Peru, Mexico and Colombia) markets.
