

GREENERGY

COMMUNICATION OF OTHER RELEVANT INFORMATION

GREENERGY RENOVABLES, S.A.

22nd April 2025

Pursuant to the provisions of article 17 of Regulation (EU) no. 596/2014 on market abuse and article 228 of the revised text of the Securities Market Act, approved by Royal Legislative Decree 4/2015, of 23 October, and concordant provisions, the following information is made available to the market regarding GREENERGY RENOVABLES, S.A. (hereinafter, "**GREENERGY**"):

GREENERGY signs a 24x7 PPA for 500GWh with Codelco

Greenergy has signed a long-term sales contract to supply green energy in Chile for a 15-year period to Codelco.

Starting in January 2026, GR Power, the energy commercialization division of Greenergy in Chile, will supply 0.5TWh of green energy per year to the Chilean state-owned mining company, the world's largest copper producer with an investment-grade rating. This agreement ensures an uninterrupted supply during non-solar hours.

The energy will primarily come from the platform that Greenergy is developing in central Chile, which includes various hybrid projects to ensure supply during non-solar hours. Among them is Monte Águila (340MW), located in the region of Biobío, which once built will become the largest plant in central Chile. It will be added to Gran Teno plant (241MW), already in operation and in the process of hybridization.

Madrid, 22nd April 2025.

D. David Ruiz de Andrés
Chairman of the Board of Directors and Chief Executive Officer
